

RAWL DOG SHIFT DETAILS

This shift should be done 4-6pm in the WINTER and 7-9pm in the SUMMER due to the temperature. Allow yourself approximately 1 and ½ hours to complete this shift.

- Check log book and white boards for any important information and messages.
- Check the med's board in case one of the dogs needs meds. If so give the med to the dog and initial the board to say it has been given.
- Prepare the dog food, 1 scoop for all the dogs, small dogs will only need a level scoop, large dogs may need 1 and ½ scoops.
- Feed dogs placing the food bowls on the porches out of the sand. Make sure to use separate dog bowls for each dog in a kennel.
- Empty out water buckets, rinse and fill with water. It's important in the SUMMER to make sure they are full. Clip them to the fence so they don't touch the ground but low enough that the small dogs can reach.
- Pick up poop and dispose of in dumpster.
- Shake out bedding, if soiled, dirty, chewed or wet replace with new bedding from the laundry room. Please be generous in the WINTER with the bedding, it can get very cold at night.
- Collect up food bowls and place in sink with hot water, bleach and dish soap.
- Walk anyone who requires a walk, they would all love a short one.
- Wash and dry the bowls and put away in the feed room.
- Log your shift duties with any comments in the log book and log your hours.
